The Transformational Gate

The Transformational Gate™ Experience is an educational, experiential weekend designed to help you develop lifetime tools for greater awareness of yourself, your tension and ease patterns, and your bodymind's underlying rhythms and needs. This will assist you in developing a positive experience with your own self-regulating energy dissipating systems resulting in enhanced spinal and nerve system integrity, insight and well being. The Gate nurtures your awareness of your inter-connection with the web of life, assisting you in your journey.

Participants from all around the world will be there to share this healing and self awareness weekend which has been attended by more than thirty thousand people! Participation in The Transformational Gate™ demonstrates your commitment to life, and to a greater degree of wholeness and healing for yourself and the global community.
