

PRESENCE is Our Practice

A 2-weekend intensive Series offered by Dr. Susan Breitbach and Dr. Judy Scher

Designed specifically for the NSA and SRI practitioner at every level exploring the artistry and depth of the practitioner/practice member interface

**March 9-11, 2012 - Florida
May 11-13, 2012 - California**

This is a 2 weekend intensive series, each program consisting of 3 days, designed to increase your EXPERIENCE of how you witness you 'Being' you. Discover, shape, and expand your gifts as a practitioner by exploring how to read, see and trust the language of the moment for outstanding levels of service to humanity.

This program is designed for those individuals who are skilled at either NSA or SRI or both and have the desire and motivation to move into a deeper experience with the work, the client and oneself. One must be prepared to shed layers of illusion and story and see the reality in the present moment. Practicing what one is feeling, experiencing, noticing, and aware of reveals the truth and frees us to assist optimally.

Presence is Our Practice is offered over two separate weekends to provide time for growth, integration and deepening over time. There will be check- in mentoring calls between the weekends for support as the material being presented is experiential and transpersonal in nature. We will meet in different locations each time, providing new information from our natural landscapes.

Mastery in the practice of NSA and SRI, requires self-awareness and presence in the practitioner. It is moving beyond judgment of outer stories about yourself and others. Presence is grown with practice of acute and consistent but patient observation of self. However to unlock those gates, one must be willing to be vulnerable to ones' inner depths. But how does one know how to do that with consistency and accuracy? This program guides you through this.

Some of the Topics to Be Covered:

- ✓ Experience greater depth within
- ✓ Know your essence first before assisting another in knowing theirs
- ✓ Develop your kinesthetic skills
- ✓ Explore multi-sensory awareness
- ✓ Cultivate self-reference ability
- ✓ Practice presence through listening, seeing, feeling the subtle cues
- ✓ Reading body posture for connection cues
- ✓ Perceive the resonance or tone of consciousness states
- ✓ Refine of your dialogue with others
