

INTEGRATIVE PRACTICE

REORGANIZATIONAL HEALING

A Revolutionary New Program WITH DONNY EPSTEIN

Integrative Practice: Reorganizational Healing is a newly developed program by Donny Epstein which bridges the realms of conventional chiropractic into emerging areas in health, healing, wellness and well-being.

This seminar is a continuum from traditional methods practiced in chiropractic through lineage models of spinal rehabilitation to wellness and beyond! During this program, participants will develop a greater understanding of influences and factors contributing to spinal reorganization and their direct relationship to an individual's health and well-being, as well as the importance of a person's process through their healing journey.

Through multi-media lecture and interactive experiential practice, participants will discover the vital elements of reorganizational healing and how it is essential to their professional practice and own life experiences.
